

RATES ARE REDUCED FOR ROUND TRIP TO NAT'L FLOWER SHOW

Reduced fares for the general public on round trip tickets to Indianapolis during the national flower show, March 25 to April 1, have been granted by the T. H. I. & E., says an announcement Wednesday by Joseph A. McGowan, chairman of the transportation committee for the fifth national flower show.

The special rate will be on the basis of one and one-half times the one-way fare for the round trip. The reduced rates will be effective from March 24 to April 1, with the privilege of returning by midnight, April 3. Other companies also have granted reduced fares.

Among the larger towns and cities benefitting by the reduced fares are Terre Haute, Sullivan, Clinton, Martinsville, Crawfordsville, Lebanon, Louisville, Richmond, Lafayette, W. Indiana and Fort Wayne.

Preparations are being made in Indianapolis to entertain the thousands of people from all over Indiana, who will attend the fifth national flower show, which promises to surpass in every respect the national shows which have been held in New York.

Twenty-five thousand dollars in cash prizes have been offered by the flower show management to the private and commercial growers of the United States for displays of their finest flowers, and it is estimated that the displays of plants and flowers and entire gardens will be worth a million and a half dollars. Thousands of fine rose plants, carnations and shrubs are to be given away to flower show visitors.

"BIG BILL" HAYWOOD HEADS GROUP GIVEN RUSSIAN CONCESSION

(By Associated Press)

MOSCOW, March 15.—William D. ("Big Bill") Haywood heads a group of American I. W. W. men to whom Premier Lenin has granted a concession to operate the Nadejdinsky iron works in the Ural mountain regions, part of the coal mines in the Kuznets basin and auxiliary factories. Haywood disappeared from the United States last year while under \$65,000 bail after he and about 90 other I. W. W. men had been convicted of espionage and conspiracy against the government in the war. He has since taken some part in the deliberations of the Third international at Moscow.

It is stipulated that 4,500 fully qualified American workers with a technical personnel shall be brought into Russia to operate the properties and that each of them must purchase \$100 worth of tools or instruments for his equipment and sign an undertaking to observe all the rules of the soviet labor code.

Assigns \$300,000

The announcement states that the government has assigned \$300,000 towards financing the undertaking. It is also to provide wood to build homes for workers and assign 27,000 acres of land for agriculture. The American workmen are to be organized into a trade union association.

The whole production of all these concessions is to go to the government which undertakes to supply the workmen with a ration and allow them part

of the production as necessary means to carry on further work.

The agreement is to hold for two years. If the workmen desire to leave Russia earlier the government is to assist them to return to their country after they have handed over to the

state the works and factories that had the installation and instruments brought from abroad.

NEW YORK, March 15.—H. S. Calvert, one of the men associated with William D. Haywood in obtaining a concession to operate an iron works and coal mines in Russia, says that a party of engineers and technicians will soon leave for Russia to prepare the way for six thousand American workmen.

Calvert, like the other concessionaries, is a member of the I. W. W. and was formerly a foreman in the Ford automobile plant in Detroit.

The others in the group of concessionaries, Calvert said, are Thomas Barker and D. Bayer, who are well known in I. W. W. circles in this country, but are now in Russia with Haywood and C. J. Rutgers, a native of Holland, who has been identified with the I. W. W. movement in the United States.

Under the terms of the concession Calvert declares the soviet government will collect a revenue of 7 per cent from the properties and reserves the right to commandeer approxi-

mately 50 per cent of the colony's output of coal, iron and machine products, for which it agrees to give the workers credits with which they can purchase other supplies. The remainder, he said, is to be left to the workers to dispose of as they see fit.

The Nadejdinsky iron works are about 1500 miles east of Moscow, and the Kuznets basin is about 3,000 east of Moscow in the Tomsk district of western Siberia.
